PUBLIC ANNOUNCEMENT

June 16, 2017

The Bladen County Water District is in communication with the (NCDHHS) North Carolina Department of Health and Human Services and (NCDEQ) North Carolina Department of Environmental Quality regarding the Gen-X in the Cape Fear River.

The Bladen County Water District serves its customers water obtained from deep wells and does not rely on surface water from the Cape Fear River.

While it is not anticipated that Gen-X is in the water supply, arrangements are being made to test the water for its presence.

As soon as test results are available, the Bladen County Water District will make the results available to the public.
