

National Weather Service Wilmington, NC

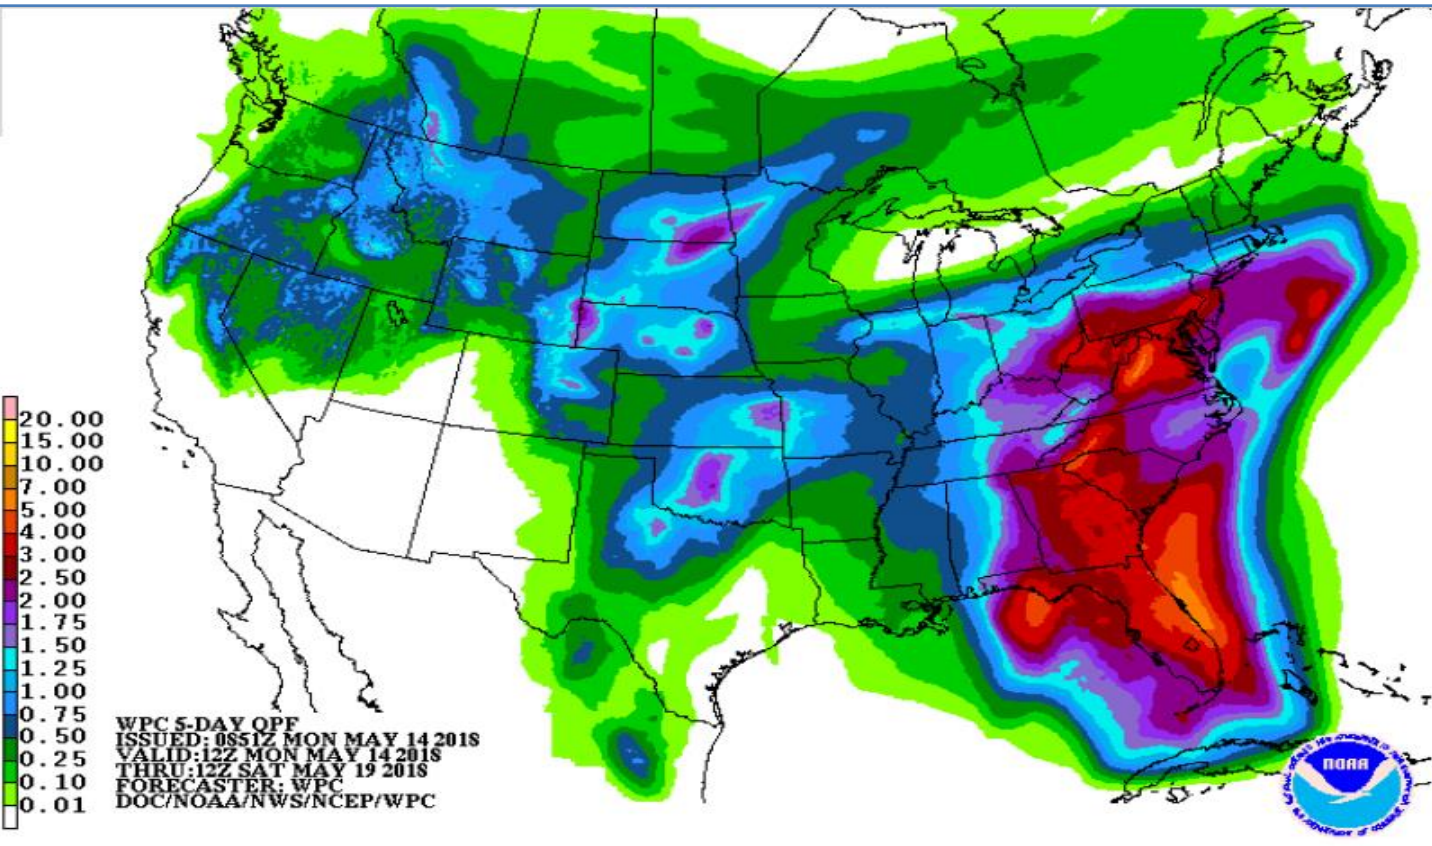

Outlook Period: 5/14/18-5/18/18
Time Issued: 9 AM Monday May 14, 2018

Prepared by: Stephen Keebler

Moisture to increase across the area

Overview: Tropical moisture will increase today and Tuesday and prevail across the region through the remainder of the week. Showers and a few thunderstorms can be expected starting Tuesday and continuing on and off through the week.

Impacts: Some localized flooding is possible with any heavier activity but overall impacts will be minimal. Some areas could see 2-4 inches of rain as shown by the image below through the next five days.
