**Past and present Pediatric ICU and Pediatric Emergency Room providers of Cape Fear Valley Hospital have organized the Wyatt Fisher Benefit Tournament. Julie Fisher, a pediatric nurse that was near and dear to all of us, lost her battle with pancreatic cancer in 2015. Before Julie's passing, she became a proud aunt to a precious little boy, Wyatt Fisher. Wyatt was diagnosed with Acute Lymphoblastic Leukemia; just two weeks shy of his 3rd birthday. In addition to his leukemia diagnosis, Wyatt had to be admitted to the Pediatric ICU at UNC hospital for unforeseen complications. His precious soul passed from this earth on April 28th, 2018. On behalf of Wyatt, his parents Daryl and Hope Fisher, and Julie's memory, please assist us in lifting up this family during a time of need.*
