the top 10% for school growth.

**Dallas Primary School.** Dallas Primary was the first of schools in the top 10%, providing learning enrichment.

**West Middle High School.** West Middle High School, with its top 10% ranking, is preparing students for a bright future.

**Dr. James A. Harrison's Perspective.** Dr. James A. Harrison, Blaine County Schools Superintendent, expressed his excitement regarding the recent accomplishments. He stated, "It is an incredible feat to have 7 of our 11 schools ranked in the top 10% or higher on the school growth index of all schools in North Carolina." This impressive feat speaks volumes about the dedication and hard work of educators and administrators in the district.

What's equally noteworthy is that 10 out of 11 schools either met or exceeded expected growth, demonstrating the district's commitment to all students. The list of schools that met or exceeded expectations includes Blaine Lakes Primary, Blaine Lakes Primary Public Primary, East Middle School, Blaine Early College High School, East Middle High School, and West Middle High School. These schools are making significant strides in shaping the future of their students.

**Dr. Harrison emphasizes:** "With a school accountability model that focuses on student growth, we are seeing significant gains in our schools' learning and achievement." This achievement underscores the dedication and hard work of educators and administrators in the district. We are proud to be associated with some of the best educators who are helping students unlock their full potential.
